

LOCATOR MAP

KEY | ESTIMATED P LOAD (NO BMP)

Color	ESTIMATED P LOAD (NO BMP)	Units
Lightest Yellow	0.06 - 0.07	Pounds per Acre
Light Yellow	0.07 - 0.08	
Yellow-Gold	0.08 - 0.11	
Gold	0.11 - 0.13	
Dark Gold	0.13 - 0.17	
Brown-Gold	0.17 - 0.21	
Dark Brown	0.21 - 0.25	

The estimated phosphorus loadings were calculated with the EPA's Spreadsheet Tool for Estimating Pollutant Loads (STEPL). STEPL was applied with the assistance of the MDEQ to existing land cover data to produce the best-possible approximation of loadings. The calculation used land cover data and runoff coefficient numbers from the 2014 Hydrology Study.

FEATURES

- Betsie River Watershed
- Crystal Lake Watershed
- Lake Michigan
- Major Watershed Lake
- Rivers
- Major Tributaries
- MDOT Roads

Source | MDEQ - STEPL

Scale | 1:160,000

Date | 3/18/2016
